An AR collecting game
for communities

Find new places. Collect your moments

Two inspirations

POAP

Memories worth keeping

~7.6 million

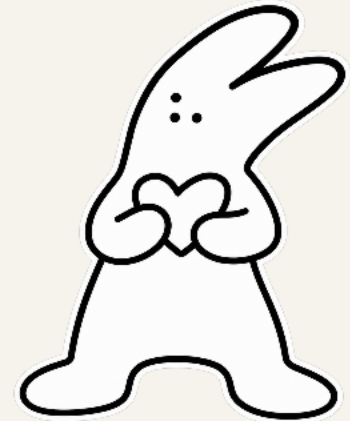

badges minted

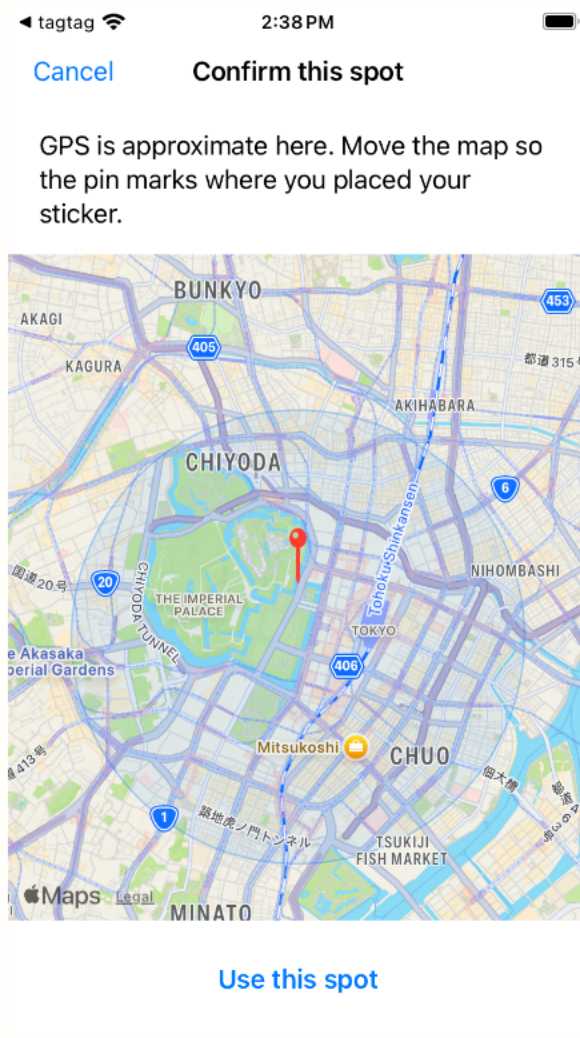

46,210+ issuers

Historical totals reported August 2026

Pokémon GO

Discovery worth
going out for

A place has
a story

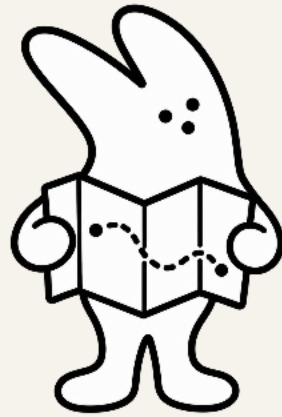

Leave a little discovery
for the next person.

The collecting loop

1. Leave a sticker

Art, a place, a private note.

2. Find its place

Follow the clue into AR.

3. Keep the memory

Collect a copy. Reveal the note.

A game communities
can make their own

A conference's gathering places

A neighbourhood's art walk

Shared discoveries give people
a reason to meet and return.

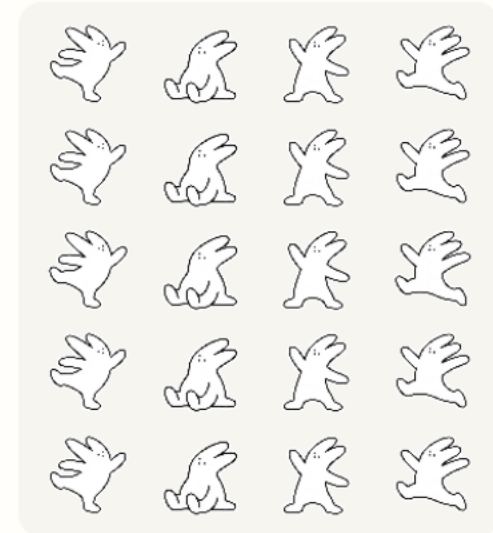

Proposed uses

DEMO

A little discovery, in the real world

How it works

Unity + ARKit

Place and recover stickers in AR

MapKit

Nearby discovery on Apple's maps

Firebase + Cloud Run

Stickers, collections and private notes

On chain souvenirs

Already implemented

The first community pilot

A small trail of meaningful places.
Original stickers from the community.
Real people trying the full journey.

Learn: do people finish, and return?

Find your places.
Collect your moments.

Let's create the first
community trail together.
